Wildlife Rehabilitation Manual

The Basics of Wildlife Rehabilitation. Wildlife rehabilitation is an important activity in which we can all participate. It has to do with caring for orphaned, injured, or sick wild animals with the ultimate intention of releasing the animal back into its natural habitat.

The Basics of Wildlife Rehabilitation | UniversalClass

Wildlife rehabilitation is providing professional care for sick, injured, or orphaned animals until they can be returned to the wild. In most cases, animals that cannot be returned to the wild must be humanely euthanized. In some special circumstances, animals can be maintained in a captive environment and used for educational purposes.
