This course focuses on the fundamentals of structure, energetics, and bonding that underpin materials science. It is the introductory lecture class for sophomore students in Materials Science and Engineering, taken with 3.014 and 3.016 to create a unified introduction to the subject. Topics include: an introduction to

## Fundamentals Of Materials Science

Radiation Materials  
Science teaches  
readers the  
fundamentals of the  
effects of radiation on  
metals and alloys.

When energetic  
particles strike a solid,  
numerous processes  
occur that can change  
the physical and  
mechanical properties  
of the material.
