IPC/JEDEC J-STD-033C

In 2013, the JEDEC
Solid State Technology
Association announced
the newest standard of
Handling, Packing,
Shipping, and Use of
Moisture/Reflow and/or
Process Sensitive
Components.

**IPC/JEDEC J-

Provides surface mount device manufacturers and users with standardized methods for handling, packing, shipping and use of moisture/reflow sensitive components. These methods help avoid damage from moisture absorption and exposure to solder reflow temperatures that can result in yield and reliability degradation and damaged components.
