Terrys Jaguar Parts: Hoses and Pipes

I've got an air leak somewhere, and it's getting serious enough that I need to fix it. Symptoms are: LTFT 1&2 both around 17 at idle, dropping to single digits at 2500 RPM. Rough idle when starting from cold in the morning, and loss of brake servo assistance when the revs drop to 500 during the rough idle period. The rough idle has only just started, but I think the air leak has been around ...

Jaguar XKE/E-Type 4.2 Vacuum Routing - YouTube

These are the correct parts to hold the vacuum hose. I found that this hose was not available so I elected to make it work and in order to do that I had to cut the hose and splice a rubber hose in the middle to extend it to its proper length. The end results. And it worked. Made it about ¾ to 1 inch inside the TB housing.

New hose is labeled 4X4E-6K817-AE with Jaguar logo. The number on the bag label (also with Jaguar logo) is C2S40863. Hopefully printing these numbers helps others find this replacement part here, as you will find scant information about it on the Web.

OES Genuine Breather Hose for select Jaguar X-Type models

1. Check for an obvious vacuum leak in the area I pointed out in the picture. If you find a vacuum line try repairing just the section that is leaking. If a plastic line leaks, cut it and use a rubber hose that snugly makes the union. If a rubber vacuum hose leaks, use a plastic line in the same manner. 2.
