Kubernetes in Action by Marko Luksa, Paperback | Barnes ...

Kubernetes in Action provides clear explanations and lot of details on Kubernetes. The book discusses the motivations of the tool and scenarios where it's useful. There are many excellent diagrams throughout the book showing how containers, pods, and networking work together.

Amazon.com: Customer reviews: Kubernetes in Action

The Kubernetes in Action Book starts with a brief introduction about Docker and K8S. And jumps into the practical aspects of K8S. Wish there was a bit more about Docker. Since the book has less on Docker, would recommend to first read the Learn Docker - Fundamentals of Docker 18.x book and read the K8S book.

Big Data and Cloud Tips: 'Kubernetes in Action' Book Review
