Parts & Kits - Machine Gun Parts & Accessories - M79 ...
Visually, the M79 grenade launcher resembles a large bore, break-action, sawed-off shotgun, and is simple in design, having only five major parts: a receiver group, a fore-end assembly, a barrel group, a sight assembly, and a stock. The fore-end assembly beds the barrel to the receiver. The stock is made out of wood or fiberglass.

M79 grenade launcher - Wikipedia
Building a M79 is getting harder and harder. Randy Shivak used to sell new receivers, but stopped. Even if you can find the receiver, the internals are a pain and there are a BUNCH of parts. Best way to go now is a M203. Barrels are still available. Just remember, you can have either the barrel OR the receiver without BATT paperwork.

M79 or M203 - Class III (NFA) Firearms and Accessories ...
the m79 is a simple to operate top break single shot weapon which is very compact and easy to use and fire.... with the flip up rear ladder site the m79 can bury the 40mm payload very accurately to ranges out to 350-400 yards with little practice.... a very iconic and cool weapon of the vietnam era....

DESCRIPTION The M79 grenade launcher is a single-shot, break-open, breech-loading, shoulder-fired weapon (Figure A-1). It consists of a receiver group, fore-end assembly, barrel group, sight assembly, stock assembly, and sling. A rubber recoil pad is attached to the butt of the stock to absorb some of the recoil.

40-MM GRENADE LAUNCHER, M79 - BiggerHammer
Description: M79 Stripped Receiver. These are newly machined from 4140 billet heat treated and parkerized. This will transfer to you on a regular transfer form. Then you can file a form 1 to make it a destructive device or barrel it with a 37mm barrel and remain a non-NFA weapon.

M79 Receivers for sale - GunsAmerica
The M79 is a single shot, break-open weapon with rifled barrel. The barrel is hinged to the receiver and is locked closed by the rotating the lever at the tang of the receiver. 40mm cartridges of various types are loaded from the breech, then barrel is closed. Internal hammer is cocked automatically upon reloading.
