while defining pay periods. All government reporting related to payroll corresponds to financial years and is broken down into monthly, quarterly, half-yearly and annual returns of different types.

What is payroll and how are payroll calculations done?

Gross wages are the total amount of money your employee earned during the current pay period.

The math works a little differently for salaried employees, hourly employees and contractors.

Hourly employees: You'll need to multiply the number of hours your employee worked by their hourly pay rate.
