On The Fourfold Root Of

On the Fourfold Root of the Principle of Sufficient Reason (German: Ueber die vierfache Wurzel des Satzes vom zureichenden Grunde) is an elaboration on the classical Principle of Sufficient Reason, written by German philosopher Arthur Schopenhauer as his doctoral dissertation in 1813. The principle of sufficient reason is a powerful and controversial philosophical principle stipulating that everything must have a reason or cause.

On the fourfold root of the principle of sufficient reason ...

Schopenhauer's PhD dissertation of 1813, *The Fourfold Root of the Principle of Sufficient Reason*, examines what many philosophers have recognized as an innate tendency to assume that in principle, the universe is a thoroughly understandable place.

Arthur Schopenhauer (Stanford Encyclopedia of Philosophy)

This recording of *On the Fourfold Root of the Principle of Sufficient Reason* uses the clear, classic translation by Madame Karl Hillebrand (1903). Leighton Pugh presents it with the same clarity and commitment he has brought to his recording of all three volumes of *The World as Will and Idea* (Ukemi Audiobooks).
