The Dirt Oval racing scene has grown in popularity over the last few years as drivers have looked for a new racing outlet that still requires speed and skill along with some scale, realistic looking vehicles. One of the easiest and cheapest classes to join is the popular Street Stock class. These vehicles primarily consist of modified 1/10 Off-Road 2WD Buggies topped with scale looking bodies.

LCG for the dirt oval is a MUST. Right front left rear shocks should be stiffer then the left front right rear shocks. it will track fine that way. Youll put the traction where it needs to be. If you do it right youll see your "inner" or left front tire raising ever so slightly at the apex of the turn.
