Textbook Animal Breeding and Genetics. Textbook Animal Breeding and Genetics. Preface: prof. Johan van Arendonk, chairholder Animal Breeding and Genetics. This textbook contains teaching material on animal breeding and genetics for BSc students. The text book started as an initiative of the Dutch Universities for Applied (Agricultural) Sciences.

## **Textbook Animal Breeding and Genetics - Groen Kennisnet**

Intended as a learning text, rather than simply a reference, this work addresses the abstract concepts of animal breeding. It presents the necessary mathematics, but assumes no previous experience in genetics and statistics. Well organized and readable, the book stresses application, then explains theory for an overall understanding of the material.
