THE ADJACENT is a novel where nothing is quite as it seems. Where fiction and history intersect, where every version of reality is suspect, where truth and falsehood lie closely adjacent to one another. It shows why Christopher Priest is one of our greatest writers.

The Adjacent Christopher Priest. A complex, at times puzzling, but absorbing story told in different time periods featuring a rich cast of characters. At the heart of the tale is a love story spanning time and alternative dimensions.

### The Adjacent by Christopher Priest

Christopher Priest is adept at mangling the mind of an unwary (and even a wary!) reader; all his books tangle, darkly, with our perceptions of reality and identity. His new novel, The Adjacent, is no exception, weaving his lifelong themes of shifting realities, alternate and parallel realities of time and place, and the alternate and parallel life of individual identity itself.

Though it was shortlisted for the Arthur C Clarke Award this year (but didn't win the prize), it has taken me a while after reading The Adjacent by Christopher Priest to assimilate how I feel about it, and even longer to work out how to write about it!. Christopher Priest is without a doubt one of the finest writers alive today. Rather than compromise his stories for the sake of easy understanding Priest writes undiluted and it's up to the reader to pay attention; to

The Adjacent tells a number of apparently unrelated episodes in the lives of different people in different places and times, drawing on several of Priest's favourite themes: near-future post-catastrophe worlds, wartime pilots, invisibility, stage magicians, his own Dream Archipelago and, most of all, ambiguous story-telling.
