Future Of Forecasting Alan Greenspan's assessment of the impact of human nature on risk and forecasting for a break from my usual biography and history. It is an in depth exploration of the 2008 and subsequent financial problems and why the economic models failed to predict developments.

The Map and the Territory: Risk, Human Nature, and the ...

Map And Territory Risk is the difference between Awareness and Knowledge. It's highest point is where the Awareness of the idea is farthest from the Knowledge of it. Hype is calculated here as being the Awareness line, subtracting Map and Territory Risk from a point lagging behind the current time (since it takes time to appreciate this risk).
