Sound is a potent, powerful energy that can express love and concern, or cause great pain and destruction. Human consciousness has begun to accept the possibility that we live in a magical world where the powerful energy vibrations made by music, positive thoughts, and words of love and harmony produce peace and beauty while vibrations lacking this positive energy produce distortion.

The Healing Power of Sound - The Chopra Center

Sound power or acoustic power is the rate at which sound energy is emitted, reflected, transmitted or received, per unit time. It is defined as "through a surface, the product of the sound pressure, and the component of the particle velocity, at a point on the surface in the direction normal to the surface, integrated over that surface."

The Power of Sound Healing - Hay House Publishing

Our skin, bones and the water in us conduct sound waves. Every cell membrane in our body has external antennas called Primary Cilium, which vibrate like little tuning forks in response to the vibrational input from our environments. Sound has the power to heal and the power to hurt. Many of the stressors in our lives are produced by noise.
